

# Terms of Reference

- Focus on 3GPP and oneM2M.
- Work out a revised process for transposition of documents.
- Define the triggers and sources of triggers for transposition aligning with global obligations & time frames, while keeping National interest and priorities in mind.
- Set the deadlines and high level plan for each exercise of transposition as and when they are taken up.
- Co-ordinate with Secretariat to meet the deadlines for the transposition exercise.
- TC will not consider any technical modifications or content changes, and will be responsible only for 'as is' transposition, modifying the format, declarations, disclaimers etc which form part of the TSDSI template.
- Any content that may be identified during the transposition as requiring changes for regulatory and or any other statutory requirements may be referred to GC or SGs for appropriate actions.
