

Terms of Reference (updated)

Responsibilities of the Roadmap Committee

- Elicit inputs from internal and external stakeholders.
- Facilitate workshops for the creation of the Standardization Roadmap.
- Anchor translation of roadmap items into activities of TSDSI.
 - Recommendations, follow-through activities, process definition
- Create visual views of the Standardization Roadmap.
- Update the roadmap every 6 months in order to ensure it is kept current.
- Be guided by the Governing Council.
- **Support for Pre-Standardization Deliberations (Technology Item Proposal) on New Items**

Targeted uses of the Roadmap

- Strategy document of TSDSI
- Sets the agenda of TSDSI – short-term, mid-term and long-term.
- Core part of TSDSI communication material also for Outreach activities.
 - **Support Pre-Standardization deliberations via TIP Forum(s)**

Relationship with Technical Groups

- Champion of the Roadmap Item to follow-up and drive the work in the Technical Group, as per the R&R
 - A session could be allocated in the technical groups to trigger discussion of the roadmap items
- Reflect ongoing technical work in the Roadmap visualization based on technical leadership inputs
